TOWER 2

Let's do it dynamically.

can be combined with Mini / Maxi Shock Absorber and ISO Dampener

motion control | limit control
variable speed and ramp

Operation via
wireless handset

compact battery power case
for easy handling

DYNAMIC

Powered movements.

FEATURES:

- Variable length up to 3 m / 10 ft.
- Payload: 80 kg / 176 lbs
- Suitable to every car
- Usable with various Remote Heads
- Operation via cable handset or wireless handset
- Mounting on 48mm tubes
- motion control and limit control
- variable speed and ramp
- power supply: 2x 24V
- can be used in vertical and horizontal mode

The Panther Tower 2 provides new ideas and unprecedented shooting for a cost-effective price. With electrically powered movements and remote control, the Tower is perfect for dynamic driving shots with a remote head, such as the Maximus 7 (available from Panther).

It can be mounted and applied to any vehicle both vertically and horizontally.

The Tower 2 is powered by an especially developed Power Case (2x 24V – 310665)

can be used in
vertical and horizontal mode

OPERATION

Let's move it

The Tower 2 is operated by a waterproof Wireless Handset (311753).

It is designed to be able to move a lot of load. As a result, it reaches a maximum payload of up to 80 kg / 176 lbs. So don't worry about set ups with Shock Absorbers + stabilized Remote Head + Camera + Lens + accessories.

LENGTHS

Powered movements.

The lightweight and slim design ensures a good view for the driver.
Following lengths of the Tower 2 are available:

- Tower 1,4 m / 4,5 ft.
- Tower 2,0 m / 6,6 ft.
- Tower 3,0 m / 10 ft.

COMPATIBILITY

Be flexible in every situation

The Tower 2 can be combined with a huge range of accessories like for example a Mini/Maxi Shock Absorber and ISO Dampener for maximum horizontal and vertical smoothness.
All standard camera mounts are supported as well:

ISO Dampener Pro (312009)

Mini Shock Absorber (313606)

Maxi Shock Absorber (313607)
